

*22* July 1956

MEMORANDUM FOR: L. K. White, Deputy Director (Support)  
SUBJECT: Daily Report

1. Representatives of several offices have physically inspected their Vital Materials deposits. Results from these inspections have permitted the withdrawal of certain materials no longer considered vital.
2. Since the start of this exercise over 1,000 requests for vital materials have been received.
3. The experimental model of the microfilm viewer reproducer was demonstrated to 64 personnel.
4. Eighteen (18) people requested assistance and advice in using microfilm readers today.
